

Woodlawn Nature Center

Winter Update

Woodlawn is a Winter Wonderland

Open Hours

We have been open on Saturdays from 1 p.m. to 5 p.m. We have indoor activities and exhibits as well as the trails that are open every day from dawn to dusk. Come enjoy Woodlawn in Winter. We are currently asking people to wear masks indoors.

Open Play Days

We have had several open play days, mostly on days that kids are off school. The next one is coming up Monday February 21 from 10 a.m. to 2 p.m. Open Play time is time to discover, experience, and learn while having fun. Kids 12 and under are required to bring an adult

caregiver to connect with nature together. Enjoy the interactive natural history exhibits. We will have activities in the educational center. There are games, hands on creative opportunities, a library to explore, and more.

However, be sure to dress for the weather so you can also enjoy the wonders of nature on our trails and grounds.

Admission: \$3/person age 3+; \$10/family of 4 or more; complimentary to our members

Annual Members Meeting

Wednesday March 16 at 7 p.m. is our annual member's meeting. We will present our annual report. and elect new and returning board members. We have openings for board members if you or anyone you know is interested. An email will be coming out soon with information on the board positions.

Special Sunday Programs

Tree Talk will be the focus of our 2nd Sunday family friendly nature program.

Do you know the difference between a Forest, a Woods, and a Savanna? Why do you think trees might be important to our existence? What secrets do trees hide?

We will have an interactive discussion about how trees interact with their natural environment, humans, and each other. Topics will include what trees are native locally, endangered, and live in the Woodlawn woods.

Participants will have the opportunity to create their own mini forest diorama, a 3d tree picture, and/or a magic tree.

Admission Fee: \$3/person age 3+; \$10/Family of 4 or more; Complimentary to WNC members
